PROFESSIONAL SUMMARY

Full-Stack Developer and final-year B.Tech student with strong skills in MERN stack development. Experienced in building scalable web applications using React.js, Node.js, Express.js, and MongoDB. Completed real-world projects and internship work focused on responsive UI, APIs, and full-stack development. Passionate about solving problems, learning modern technologies, and building impactful software products.

PROFESSIONAL EXPERIENCE

Forbes Marshall — *Software Engineering Intern — AI-Powered Employee Suggestion Scheme* Oct 2025
Pune, India

- Developed a Gemini-powered AI chatbot that automated suggestion analysis and generated real-time summaries, improving reporting efficiency for employee feedback management.
- Created Power BI dashboards and automated reporting workflows that streamlined performance tracking and contributor analysis.
- Improved chatbot classification accuracy by **35%** through iterative prompt engineering and RAG-based context retrieval.

Deloitte (via Forage) — *Data Analytics Virtual Experience Program* Jun 2025
Remote

- Analyzed business datasets and created Tableau dashboards to visualize insights during Deloitte's data analytics simulation.
- Applied Python and SQL to perform exploratory data analysis across **3 business scenarios**, translating raw data into executive-level actionable recommendations.

PROJECTS

Streamify — **Real-Time Language Exchange & Communication Platform** [\[Live\]](#) Sep 2025
Tech: React.js, Express.js, MongoDB, Tailwind CSS, Zustand, TanStack Query, Stream API

- Engineered a full stack **MERN** real-time platform supporting **one-on-one and group video calls** with screen sharing, call recording, and live chat — scaled to handle **100+ concurrent sessions**.
- Implemented a **Zustand** global state layer with **TanStack Query** for optimistic updates and cache invalidation, cutting redundant API calls by **40%** and improving perceived load time by **30%**.
- Delivered a fully responsive UI across mobile, tablet, and desktop viewports with zero reported layout regressions post-launch.

FitVerse — **AI-Powered Fitness Tracking Platform** Apr 2025
Tech: React.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Built a MERN-based fitness tracking platform with workout logging, hydration tracking, and health monitoring dashboards.
- Enhanced user experience through personalized nutrition recommendations and responsive UI components.
- Optimized **RESTful APIs** with MongoDB aggregation pipelines, supporting **10+ health metrics** per user with average query response times under **120 ms**.

Rural & Agriculture Development Portal Mar 2025
Tech: React.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Constructed a full stack rural development portal to streamline scheme access, labor coordination, and logistics tracking.
- Integrated digital verification workflows and equipment rental management features for rural users.
- Developed **12+ RESTful API endpoints** and an optimized frontend for low bandwidth environments, ensuring smooth user experience.

Personal Portfolio Website [\[Live\]](#) Oct 2025
Tech: React.js, Tailwind CSS, Vercel

- Designed and deployed a portfolio website to showcase technical projects, skills, and achievements.

TECHNICAL SKILLS

Languages:	C++, Python, JavaScript, SQL
Frontend:	React.js, HTML5, CSS3, Tailwind CSS
Backend:	Node.js, Express.js, REST APIs
Databases:	MongoDB, MySQL
AI:	LLM Prompt Engineering, Generative AI
Cloud & DevOps:	Vercel, Render, Git, GitHub, CI/CD
Tools:	Power BI, Tableau, Postman, JIRA, VS Code, Jupyter Notebook

EDUCATION

Vishwakarma Institute of Information Technology (VIIT) — *Bachelor of Technology in Software Engineering* Aug 2023 – May 2027
Pune, India

- CGPA: **8.56 / 10.0** | Relevant Coursework: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Software Engineering, Machine Learning

CERTIFICATIONS

Oracle Cloud Infrastructure 2025 Certified Generative AI Professional — Oracle Aug 2025

- Gained hands-on experience with LLMs and OCI Generative AI Service, implementing RAG and LangChain for intelligent chatbot development.

The Complete Full-Stack Web Development Bootcamp — Udemy (Angela Yu) Jul 2025

- Completed **65+ hours** of project-based full stack development: HTML, CSS, JavaScript, React, Node.js, Express, PostgreSQL, REST APIs, authentication, and responsive design; shipped **5 deployed projects**.

CCNA: Introduction to Networks — Cisco Networking Academy

- Learned foundational networking concepts including IP addressing, subnetting, routing, switching, and basic network configuration.

ACHIEVEMENTS & RECOGNITION

Best Innovation Award — VIIT Hackathon “Hack for Humanity” Mar 2025

- Led Team “404 but Team Found” to build an innovative tech solution addressing a real-world problem. Won the **Best Innovation Award** among **50+ participating teams**.

Patent Filed — Sensor-Based Automated Flush & Fragrance Dispensing System Mar 2025

- Inventor of a system using motion and proximity sensors to automate flushing and fragrance dispensing in public restrooms, ensuring hygiene and reducing manual intervention. Patent Application No.: **2025/01982**, filed in **South Africa** via CIPC.

Google Cloud Arcade Challenge — Google Cloud Skills Boost 2025

- Completed hands-on labs on Cloud Compute, APIs, BigQuery, and VMs. Earned exclusive swag for consistent learning and engagement.
